The SRI Model H2-100 is a perfect solution for labs which prefer not to have hydrogen cylinders. The H2-100 makes up to 100ml/minute of GC quality hydrogen from distilled water.

The outlet pressure is set to 60 psi but can be adjusted down if required. A quality 1/8” Swagelok style stainless steel outlet fitting makes connection to your GC easy, and a quick shut-off toggle valve provides instant on/off control.

A digital flow display shows H2 usage, and the handy pressure gage confirm proper operation.
